

More Detail

Ecocycle W17

The Ecocycle W17 replace the outdoor fan and coil with a heat exchanger. For this system to work the building provides a loop of water.

It can heat water from 7 degrees to **35 degrees** with **17,62 kW** and **5,21 COP**. It can provide **61 °C** max outlet water temperature.

Cooling

Heating

Technical Specifications

Capacity	17kW
Circulation Pump	External
Compressor	Panasonic Scroll
Operating Modes	Cooling, Heating, How Water
Mixing Valve	Internal
Power Supply	380V
Reactor Coolant	R407C
Size H/W/D (mm)	710/710/1020

Hot Water

Weather Compensation

Ability to Work -25°C
